ABOUT SEAM ALLOWANCES

Patterns are designed using the metric system and include a 1 cm seam allowance (approximately 0.4 inches).

The standard imperial unit seam allowance of 3/8 inch corresponds to 0.9525 cm.

If you prefer using inches, it is recommended to keep the seam allowance at 1 cm and pair it with the 3/8 inch setting.

The difference of less than 0.05 mm will have no effect on the final result.
